

Assignment-3

➤ Create a Bucket in IBM Object Storage.

➤ Upload an 5 images to ibm object storage and make it public. write html code to displaying all the 5 images.

```
<html>
<head>
<title>image
e
```

```

</title>
</head>

<body><b>

<h1>
cloudobjectstorage</h1></b><center>

<br>
<br>
</center>
<b>
<h1>

cloudApplicationDevelopment</h1></b>

<center>

<br>

<br>

</center>
</body>
</html>

```

- Uploadacsspagetotheobjectstorageandusethe samepageinyour HTML code.

- Create Watson assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

The screenshot shows the IBM Watson Assistant interface. On the left, a list of steps for the 'Greet customer' intent is visible. Step 10 is highlighted, showing the text 'yes!! Available' and a 'Continue to next step' action. The main panel shows the configuration for Step 10, which is taken 'without conditions'. The 'Assistant says' section contains the text 'yes!! Available'. The 'And then' section shows the action 'Continue to next step'. On the right, a 'Preview' chat window shows a conversation where the user says 'hi' and the assistant responds with 'welcome!!!'. The user then asks 'how can i help you', and the assistant responds with 'may i know how many branches in the city' and 'is there available 24/7?'.

The screenshot shows the IBM Watson Assistant interface. On the left, a list of steps for the 'Greet customer' intent is visible. Step 10 is highlighted, showing the text 'yes!!
