chatbot

The screenshot shows the IBM Watson Assistant Lite interface for a 'Hospital bot'. The top navigation bar includes 'IBM Watson Assistant Lite', 'Upgrade', 'Hospital bot', and a 'Learning center' link. The main area is titled 'Greet customer' and contains a 'Conversation steps' panel on the left, an 'Action starts' panel in the center, and a 'Preview' panel on the right.

Conversation steps:

- Step 1: Assistant starts with step 1. The action is 'welcome!!!'. There are two input options: 'hi' and 'hello'. The step continues to the next step.
- Step 2: The action is 'how can i help you'. There are two input options: 'may i know h...' and 'is there avail...'. The step continues to the next step.
- Step 3: The action is 'please share your location'. There are two input options: 'bangalore' and 'chennai'. The step continues to the next step.
- Step 4: The action is 'yup ☺ is available 24/7'. There is one input option: 'is there available 24/7?'. The step continues to the next step.

Action starts:

When your assistant is first opened or engaged with. ①

No training examples necessary.

Use the default greeting or customize your own.

Preview:

The preview shows a chat interface with the following messages:
